

浙江省杭州第二中學

HANG ZHOU No.2 HIGH SCHOOL OF ZHE JIANG PROVINCE

Letter of Recommendation

To the Admissions Committee,

I am writing to wholeheartedly recommend **Mr. Zhang Yichao** for admission to your undergraduate program in Biology or Chemistry. As his high school Biology teacher at Hangzhou No.2 High School of Zhejiang Province, I have had the pleasure of instructing Zhang Yichao for three years and have been consistently impressed by his intellectual curiosity and academic dedication.

In the classroom, Zhang Yichao is an exceptional student. He is an active and engaged participant who not only excels in absorbing complex concepts but also consistently raises thoughtful questions that stimulate deeper discussion. His assignments are always completed with meticulous care and reflect a genuine desire to understand the material beyond the requirements of the curriculum. This rigorous attitude is clearly demonstrated by his outstanding academic record, where he consistently ranks among the top students in the subject.

His capabilities are particularly evident in the laboratory. Zhang Yichao approaches experiments with remarkable seriousness and precision. He demonstrates strong practical skills, carefully follows protocols, and records data with great accuracy. His enthusiasm for hands-on learning is further shown by his active participation in additional biology experiments outside of regular class hours.

What truly distinguishes Zhang Yichao, however, is his profound passion for biology. He frequently engages me in conversations about advanced topics and cutting-edge research, from genomics to environmental science. His inquiries often extend far beyond the scope of our syllabus, revealing a broad scientific perspective and a self-driven motivation to explore the frontiers of natural science. I can confidently state that his enthusiasm for the subject is genuine and deeply rooted.

I am firmly convinced that Zhang Yichao possesses the intellectual maturity, practical skills, and unwavering passion needed to succeed in your rigorous academic environment. He has my highest recommendation, and I am confident that he will become a highly motivated and successful student who will contribute positively to your university community. I believe he has the potential to achieve great accomplishments in his future scientific pursuits.

Sincerely,

Ye Zihang

Ye Zihang
